

PC Software Dongle S1000 Standalone-Solution for Truck Weighing

The S1000 is an extremely user friendly PC software for truck weighbridge management. Handles input from up to 3 weight indicators with multiple truck IDs, multiple customer IDs and multiple products. Supports transaction completion for multiweigh bridge sites

- Setup and Printing in all locations including a PC – very user friendly
- Easy entry of tare weight & Truck IDs via PC
- Preset Tare and accumulation data stored on each Truck ID
- Easy export of weight data as csv file
- Compatible with out indicators R320 und R420-K401; as well as with indicators of other manufacturers (e.g. Rhewa, Schenck, HBM, Systemc)

Interested? Then please don't hesitate to contact us - we would be pleased to send you a test version.

Also new: R400 Series – K404 Truck Weighing

The K404 is designed specifically for truck weighing. It allows for a range of operational scenarios all in one setup, from weigh-in/weigh-out to stored truck IDs.

The dedicated Truck ID button and Print button simplify the operator interface. Additionally the alpha-numeric keypad allows for easy entry of tare weight and Truck IDs. With 250 Truck IDs available it is suitable for applications with truck fleets of up to 250
