

HANGING SCALE SAFETY INSTRUCTIONS

Hanging Scale with a Lifting Sling

- The instrument is designed to lift 300kg.
- The instrument is not certified for use as a primary safety device for lifting applications.
- Therefore, it is recommended to use a rated standard Lifting Sling with following specifications;
 - Round Lifting Sling
 - 0.5m Effective Working Length (1m circumference)
 - 1000kg Rated Capacity
- Apply the lifting sling to shackles, connected to top and bottom eyebolts.
